

Ernie Els Sauvignon Blanc 2016

main variety Sauvignon Blanc

vintage 2016

analysis alc: 13.0 | ph: 3.49 | rs: 2.82 | ta: 5.9

type White

producer Ernie Els Wines

style Dry

winemaker Louis Strydom

wine of origin Western Cape

tasting notes

The 2016 Ernie Els Sauvignon Blanc explodes on the nose with guava, lime, kiwi fruit and gooseberries. A rather concentrated vintage with a tangy acidity, there is good contrast of tropical fruit and a pebbly texture. Hints of green pepper and figs offer complexity to fruit pastels on a long, soft finish. An exotic wine that already shows its rainbow of bright colours.

blend information

100% Sauvignon Blanc

in the vineyard

The Sauvignon Blanc grapes were harvested from individually selected, low yielding vines from two appellations namely Darling and Stellenbosch. Each viticultural area and terroir lends its own unique flavour profile to the final blend.

The 2016 vintage

Challenging conditions led to a reduced wine grape crop for South African producers in 2016, but grapes were healthy and concentrated flavours promise good wines. The weather was very warm, especially from the end of October towards the end of January, which restricted the growth and constituted lower bunch masses and smaller berries. However, the dry conditions led to the vineyards and grapes being very healthy overall. Smaller berries led to more concentrated colour and flavour on the positive side and good wines are expected from the 2016 harvest. Good reserves were accumulated during the post-harvest period (April and May), after which leaf fall occurred mostly at the right time. The winter started off late in most of the regions but the weather conditions were cold enough to break dormancy. Spring came on time and the weather conditions were ideal which led to good, even bud burst. The harvest period started a week early due to the warmer weather and it ended about two weeks earlier. The white wines from the 2016 vintage appear astoundingly good, with great structure and good flavours.

about the harvest

The grapes were hand-picked in the cool of early morning.
Harvest: February, 2016. 23.0° Brix average sugar at harvest

in the cellar

On the sorting table, all excess stalks and inferior berries were carefully removed. Grape bunches were gently de-stemmed with a de-stalker and lightly crushed. The wine was settled overnight and the sediment racked-off the following day. Fermentation took place at low temperatures (12-14°C) in stainless steel tanks with a combination of yeasts, over a two week period. Working very reductively in the cellar after both crushing and de-stemming, post fermentation lees contact was maintained for two months with weekly stirring of the lees before racking and stabilization prior to bottling. This wine is crafted in a fresh style without any oak component.

Production: 7 000 x 6 x 750ml cases
